NTP Interagency Center for the Evaluation of Alternative Tox. Methods

DEAR DR. STOKES,

I'M WRITING TO YOU TODAY TO EXPRESS MY DEEP CONCERN REGARDING THE EPA'S HPV CHEMICAL TESTING PROGRAM POLICIES. NON-ANIMAL TEST METHODS HAVE BEEN CONSIDERED FOR 20 YRS., BUT NOT YET ADOPTED.

THE WHOLE ANIMAL-UTILIZING PROCESS DOESN'T YIELD RELIABLE RESULTS, SO USING THE IN VITRO CULTURE METHODS HAVE THAT GOIN' FOR EM TOO.

THANKS FOR YOUR TIME,
