

**Corie Ellison, Ph.D.**

*The Procter & Gamble Company*

Corie Ellison received a Ph.D. degree in pharmacology and toxicology from the School of Medicine and Biomedical Sciences at The State University of New York at Buffalo in 2011. After graduation, he joined The Procter & Gamble Company as a Toxicologist in the Central Product Safety organization. Currently, Dr. Ellison has responsibilities for the human safety/risk assessment of multiple technologies in P&G's global cosmetic businesses. He has established expertise in pharmacokinetics, i.e., absorption, distribution, metabolism and excretion (ADME), and used this knowledge to develop innovative approaches using physiologically-based pharmacokinetic models to predict systemic exposure and refine/advance the quantitative risk assessment for topically applied products.
