

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### National Institutes of Health

#### Announcement of Availability of the Fifteenth Report on Carcinogens

**AGENCY:** National Institutes of Health, HHS.

**ACTION:** Notice.

**SUMMARY:** The Department of Health and Human Services released the 15th Report on Carcinogens (RoC) to the public on December 21, 2021. The report is available on the RoC website at: <https://ntp.niehs.nih.gov/go/roc> or from the Office of the RoC (see ADDRESSES below).

**DATES:** The 15th RoC is available to the public on December 21, 2021.

**ADDRESSES:** Dr. Ruth Lunn, Integrated Health Effects Branch, Division of the NTP, NIEHS, P.O. Box 12233, MD K2-14, Research Triangle Park, NC 27709; telephone: (919) 316-4637; FAX: (301) 480-2970; [lunn@niehs.nih.gov](mailto:lunn@niehs.nih.gov).

**FOR FURTHER INFORMATION CONTACT:** Questions or comments concerning the 15th RoC should be directed to Dr. Ruth Lunn (telephone: 919-316-4637 or [lunn@niehs.nih.gov](mailto:lunn@niehs.nih.gov)).

#### SUPPLEMENTARY INFORMATION:

#### Background Information on the RoC

This notice is in accordance with the Public Health Service Act Section 301(b)(4). The Report on Carcinogens (RoC) is a Congressionally mandated document that identifies and discusses agents, substances, mixtures, or exposure circumstances (collectively referred to as “substances”) that may pose a hazard to human health because of their carcinogenicity. Substances are listed in the report as either *known* or *reasonably anticipated to be human carcinogens*. The listing of a substance in the RoC indicates a potential hazard; it does not establish the exposure conditions that pose a cancer hazard to individuals in their daily lives. For each listed substance, the RoC provides information from cancer studies that support the listing, as well as information about potential sources of exposure and current federal regulations to limit exposures. Each edition of the RoC is cumulative, that is, it lists newly reviewed substances in addition to substances listed in the previous edition. Information about the RoC is available on the RoC website (<http://ntp.niehs.nih.gov/go/roc>) or by contacting Dr. Lunn (see ADDRESSES above).

The National Institute of Environmental Health Science, National

Toxicology Program (NTP) prepares the RoC on behalf of the Secretary of Health and Human Services. For the 15th RoC, NTP followed an established, multi-step process with multiple opportunities for public input, and used established criteria to evaluate the scientific evidence on each candidate substance under review (<http://ntp.niehs.nih.gov/go/rocprocess>).

#### New Listings in the 15th RoC

The 15th RoC contains 256 listings, some of which consist of a class of structurally related chemicals or agents. There are eight new listings in this edition. The new listing in the category of *known to be a human carcinogen* is *Helicobacter pylori* (chronic infection). Seven of the new listings are in the category of *reasonably anticipated to be a human carcinogen*: Antimony trioxide and six haloacetic acids found as water disinfection by-products, including bromochloroacetic acid, bromodichloroacetic acid, chlorodibromoacetic acid, dibromoacetic acid, dichloroacetic acid, and tribromoacetic acid.

Dated: December 20, 2021.

**Richard P. Woychik,**

Director, National Institute of Environmental Health Science and National Toxicology Program.

## DEPARTMENT OF HOMELAND SECURITY

### Transportation Security Administration

#### Intent To Request an Extension From OMB of One Current Public Collection of Information: Cybersecurity Measures for Surface Modes

**AGENCY:** Transportation Security Administration, DHS.

**ACTION:** 60-Day notice.

**SUMMARY:** The Transportation Security Administration (TSA) invites public comment on one currently-approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0074, abstracted below, that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). On November 30, 2021, OMB approved TSA’s request for an emergency approval of this collection to address the ongoing cybersecurity threat to surface transportation and associated infrastructure. TSA is now seeking to renew the collection, which expires on May 31, 2022, with incorporation of the

subject of the emergency request. The ICR describes the nature of the information collection and its expected burden. The collection allows TSA to address the ongoing cybersecurity threat using a risk-based approach to transportation security.

**DATES:** Send your comments by February 22, 2022.

**ADDRESSES:** Comments may be emailed to [TSAPRA@tsa.dhs.gov](mailto:TSAPRA@tsa.dhs.gov) or delivered to the TSA PRA Officer, Information Technology (IT), TSA-11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598-6011.

**FOR FURTHER INFORMATION CONTACT:** Christina A. Walsh at the above address, or by telephone (571) 227-2062.

#### SUPPLEMENTARY INFORMATION:

#### Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

#### Information Collection Requirement

*OMB Control Number 1652-0074; Cybersecurity Measures for Surface Modes.* Under the Aviation and Transportation Security Act<sup>1</sup> and delegated authority from the Secretary of Homeland Security, TSA has broad responsibility and authority for “security in all modes of transportation . . . including security responsibilities . . . over modes of transportation that are exercised by the Department of

<sup>1</sup> Public Law 107-71 (115 Stat. 597; Nov. 19, 2001), codified at 49 U.S.C. 114.
