

NICEATM-ICCVAM Posters

at the Seventh World Congress on Alternatives and Animal
Use in the Life Sciences

Poster Session 10: Validation Concepts

Area 2: Galleria San Pietro, Lower Level

Abstract 582: Testing of Coded Substances for a Multi-phased International Validation Study of an Estrogen Receptor Transcriptional Activation Assay

Abstract 586: ICCVAM Recommendations for Five *In Vitro* Pyrogen Test Methods

Poster Session 21/22: Skin and Eye Toxicity

Area 1: Room Michelangelo, Lobby Level

Abstract 583: International Acceptance of *In Vitro* Alternative Ocular Safety Testing Methods: The Isolated Chicken Eye Test Method (Draft OECD TG 438)

Abstract 584: International Acceptance of *In Vitro* Alternative Ocular Safety Testing Methods: The Bovine Corneal Opacity and Permeability Test Method (Draft OECD TG 437)

Abstract 585: Evaluation of Potential False Negative Corrosive Chemicals in Proposed *In Vitro* Dermal Irritation Assays

Poster Session 29: Immunology

Area 5: Corridor Belle Arti, Garden Lobby Level

Abstract 579: Internationally Harmonized Performance Standards for the Murine Local Lymph Node Assay

Abstract 580: The Updated ICCVAM Recommended Murine Local Lymph Node Assay Protocol

Abstract 581: ICCVAM Test Method Recommendations for the Reduced LLNA

NICEATM Staff and ICCVAM Committee Members

will be presenting at the following breakout sessions:

Breakout Session 10: Current and Evolving Concepts for the Validation of Safety Assessment Methods

Monday August 31 14:50-17:20

Room: Terrazza Monte Mario

“Validation of Innovative Technologies and Strategies for Safety Assessment Methods: Challenges and Opportunities”, Dr. William S. Stokes

“The Use of Test Method Performance Standards to Expedite Validation of Innovative and Improved Versions of Test Methods and Testing Strategies”, Dr. Marilyn L. Wind

Extra Breakout Session 4: Status Report on ICATM

Tuesday, September 1 10:00-11:00

Room: San Pietro

“What is the International Cooperation on Alternative Test Methods (ICATM) and What is its Role?”, Dr. Marilyn L. Wind

“Current and Future Contributions of NICEATM and ICCVAM to the ICATM”, Dr. William S. Stokes

Lunch Session 4: Recent Progress and Future Directions in the Validation and Regulatory Acceptance of Alternative Test Methods that Reduce, Replace, and Refine Animal Use

Tuesday, September 1 13:30-14:30

Room: San Pietro

“Recent Progress and Future Directions at NICEATM-ICCVAM: Validation and Acceptance of Alternative Methods that Reduce, Replace, and Refine Animal Use”, Dr. William S. Stokes

**Posters and abstracts presented by NICEATM-ICCVAM will be available after
September 3 on the NICEATM-ICCVAM website at:**

<http://iccvam.niehs.nih.gov/meetings/7thWC/7WCablst.htm>
