

Draft Agenda

Workshop: BioMed21 – A Human Pathways Approach to Disease Research

Co-organized by the National Toxicology Program and the Human Toxicology Project Consortium

Fishers Lane Conference Center
National Institutes of Health
Bethesda, MD
June 26-27, 2017

Monday, June 26

Time	Agenda Item	Presenter
8:00 a.m.	Registration and continental breakfast outside meeting room <i>Refreshments sponsored by the Human Toxicology Project Consortium</i>	
8:30 a.m.	Welcome, summary of workshop, goals, work products	Kate Willett Humane Society of the United States (HSUS)/Humane Society International (HSI)
8:45 a.m.	Keynote Lecture – A Call to Action	Chris Austin National Center for Advancing Translational Sciences (NCATS)
9:30 a.m.	Session 1 – Setting the Stage: What is Needed and Why?	Chair: Warren Casey National Institute of Environmental Health Sciences (NIEHS)
9:35 a.m.	• Challenges and needs to use existing data in drug development	François Pognan Novartis
9:55 a.m.	• A strategic roadmap to the implementation of alternatives	Warren Casey NIEHS
10:20 a.m.	• Clinical point of view: current practices, challenges, and needs	Bruce Cuthbert National Institute of Mental Health
10:45 a.m.	Break <i>Refreshments sponsored by the Human Toxicology Project Consortium</i>	
11:00 a.m.	• FDA collaborations for addressing practical applications	Suzanne Fitzpatrick Food and Drug Administration (FDA)
11:20 a.m.	• Case studies in 21st century disease models <ul style="list-style-type: none"> ◦ A tiered approach to in vitro-based compound testing: Using computational modeling, big data approaches and fit-for-purpose in vitro assays to streamline compound development ◦ Using organoids to define key pathways in chronic obstructive pulmonary disease (COPD) pathogenesis ◦ Organs-on-chips: A platform for advancing drug development and disease modeling 	Rebecca Clewell ScitoVation Ian Adcock Imperial College London Daniel Levner Emulate, Inc.
