Please please encourage everyone to use alternatives to animal testing. Please replace the horrific Draize test. It is so cruel and barbaric. Think of how much it burns your eyes if you get a little soap in it during a shower. How would you like to be locked in a device and have corrosive liquids poured directly into your eyes??? I can't even imagine the pain and suffering these animals endure.

We are living in the 21st century and in an advanced developed country. What we do to animals reminds me of third world country mentality--like something Saddam Hussein or the Taliban would be doing.

Please use alternatives .

thank you very much
