Subject: Re: Draize Test
Importance: High

Regarding the Inhumane practice of Draize Testing, and any animal testing: I urge you, please, to:

1. Recommend that federal agencies immediately begin accepting the alternative methods found to be so very useful
2. Move forward with recommended improvements in the alternatives without delaying the acceptance of the tests' current forms
3. Go beyond the current efforts by developing and validating non-animal methods to completely replace the use of the Draize test.

Thank you for your consideration.
