

Expert Panel Meeting on *Identifying Research Needs for Assessing Safe Use of High Intakes of Folic Acid* on May 11 – 12, 2015

Background Material:

- Federal Register notice for the meeting

NTP Scientist: Abee Boyles, NIEHS/DNTP, Office of Health Assessment and Translation

Lead Discussant: Sonya Sobrian (BSC liaison to the expert panel meeting)

The NTP and the Office of Dietary Supplements convened an expert panel on May 11 – 12, 2015 at Natcher Conference Center, National Institutes of Health, Bethesda, MD to identify research needs based on the state of the science related to the safe use of high intakes of folic acid.

Dr. Boyles will present an overview of the expert panel meeting.

Additional information on the meeting is at <http://ntp.niehs.nih.gov/go/730864>.
