
NATIONAL TOXICOLOGY PROGRAM
Peer Review of Draft Report on Carcinogens (RoC)
Monographs for 1-Bromopropane and Cumene
March 21-22, 2013 Meeting

The peer-review panel's charge is:

(1) To comment on the draft cancer evaluation component, specifically, whether it is technically correct and clearly stated, whether the NTP has objectively presented and assessed the scientific evidence, and whether the scientific evidence is adequate for applying the listing criteria.

(2) To comment on the draft substance profile, specifically, whether the scientific justification presented in the substance profile supports the NTP's preliminary policy decision on the RoC listing status of the candidate substance.
