**Peer Review of the Draft NTP Monograph on the Systematic Review of
Long-Term Neurological Effects Following Acute Exposure to the
Organophosphorus Nerve Agent Sarin
February 4, 2019**

Peer Review Charge

The Monograph Peer-Review Panel is charged to:

- (1) Comment on whether the Draft NTP Monograph on Long-term Neurological Effects Following Acute Exposure to Sarin is technically correct, clearly stated, and objectively presented.
- (2) Vote on whether the scientific evidence from animal studies and from human studies supports the level of evidence conclusions regarding health effects from acute sarin exposure.
- (3) Vote on whether the scientific evidence supports NTP's policy decisions for hazard categorization on long-term neurological effects of acute sarin exposure.
