

Peer Review of the Draft NTP Monograph on the Systematic Review of Evidence of Long-Term Neurological Effects Following Acute Exposure to the Organophosphorus Nerve Agent Sarin

February 4, 2019

PANEL¹

Chair

Pam Factor-Litvak, Ph.D. (Chair)
Associate Dean for Research Resources
Professor, Epidemiology
Columbia University Medical Center
New York, NY

Panelists

Frédéric Baud, M.D.
Expert Consultant, Department of Anesthesiology and Intensive Care Medicine
Université Paris Diderot, Assistance Publique – Hôpitaux de Paris
Paris, France

John Beard, Ph.D.
Assistant Professor, Department of Public Health
Brigham Young University
Provo, Utah

Peter Blain, M.D.
Researcher and Professor of Environmental Medicine
Medical Toxicology Research Centre
Newcastle University
Newcastle upon Tyne, England

Michelle Block, Ph.D.
Associate Professor, Department of Anatomy and Cell Biology, Indiana University School of Medicine, Stark Neuroscience Research Institute
Adjunct Associate Professor, Department of Pharmacology and Toxicology, Indiana University School of Medicine
Non-clinical Scientist, Clinical Sciences and Biomedical Laboratory, Research and Development Services, Roudebush VA Medical Center
Indianapolis, Indiana

Arik Eisenkraft, M.D., MHA
Adjunct Clinical Senior Lecturer in Military Medicine, The Hebrew University Faculty of Medicine
Subject Matter Expert on Chemical, Biological, Radiological, and Nuclear Medicine (Retired), Israeli Ministry of Defense
Senior Advisor, Homeland Defense Products, Pluristem Therapeutics Ltd.
Chief Medical Officer, AktiVax Inc.
Chief Medical Officer, BioBeat Technologies Ltd.
Chief Medical Officer, SolDel Ltd.
Research Associate, ThoraXS
Tel-Mond, Israel

Lawrence Engel, Ph.D.
Associate Professor, Department of Epidemiology, University of North Carolina at Chapel Hill
Chapel Hill, North Carolina

Virginia Moser, Ph.D.
Private Neurotoxicology Consultant
Retired, U.S. Environmental Protection Agency
Apex, North Carolina

¹ Experts from outside of the National Toxicology Program (NTP) are invited to serve as peer reviewers based on their expertise, and they are vetted to ensure they have no conflicts of interest. Experts may be identified from academia, industry, state government, other federal agencies, and nongovernmental groups. For peer review of the draft NTP monograph, the panelists have expertise in neurotoxicological epidemiology, sarin, organophosphate toxicity, and human and animal neurotoxicology.
