

## **International Collaborations on Alternative Test Method Activities (selected)**

### **OECD Activities**

OECD Eye Expert Teleconference Meeting. Teleconference. July 12, 2012.

- Participation in Expert Group's discussions on potential Integrated Testing Strategies.

Ninth Meeting of the Validation Management Group for Non-Animal Testing (VMG-NA). Budapest, Hungary. November 30 – December 2, 2011.

- Participation in working group discussions.
- Presentation of NICEATM-ICCVAM Endocrine Disruptor Related Activities

OECD Eye Expert Meeting. Ispra, Italy. September 29-30, 2011.

- Participation in discussions.

OECD Skin Irritation/Corrosion Expert Meeting. Helsinki, Sweden. January 18-19, 2012.

- Participation in discussions via teleconference.

Draft OECD Test Guideline Reviews

- Coordinated ICCVAM Interagency Working Group review of drafts for new and revised OECD test guidelines relevant to alternative testing methods and submitted comments to U.S. National Coordinator.

### **ICATM Partner Activities**

36<sup>th</sup> ECVAM Scientific Advisory Council (ESAC) Meeting. Ispra, Italy. March 20-21, 2012.

- Participation as a non-voting observer
- Presentation on current and planned NICEATM-ICCVAM Activities

JaCVAM Advisory Council Meeting. Sendai, Japan. November 12, 2011.

- Participation as a non-voting observer
- Presentation on current and planned NICEATM-ICCVAM Activities

35<sup>th</sup> ECVAM Scientific Advisory Council (ESAC) Meeting. Ispra, Italy. October 4-5, 2011.

- Participation as a non-voting observer
- Presentation on current and planned NICEATM-ICCVAM Activities

ECVAM and JaCVAM Validation Management Groups (VMG)

- Participated in VMG meetings.
- Provided comments on validation study plans, including protocols, test substance selection, and analysis of results.
- Current ECVAM VMGs
  - Validation study in the field of toxicokinetics and metabolism: Biotransformation enzyme induction using HepaRG cells and cryopreserved human hepatocytes (CYP Induction Study)

- Skin Sensitization Study (DPRA, MUST, and h-CLAT Assays)
- Multi-Study Validation Trial of the Transactivation Assay for the Detection of Compounds with (Anti)Estrogenic Potential Using MELN Cells
- ECVAM Eye Irritation Validation Study
- Current JaCVAM VMGs
  - IL-8 Luc Assay Study (Skin Sensitization)
  - CERI Androgen Agonist and Antagonist Validation Study
  - SIRC-CVS Validation Study
