Subject: Written comments for the SACATM meeting

Sent via email to: Robert Guy: [guyr2@niehs.nih.gov](mailto:guyr2@niehs.nih.gov)

For Topic: Implementation Acute Systemic Toxicity

Of possible relevance to implementation of acute systemic toxicity noted on the agenda of this meeting, there is a new document recently published by the OECD. This document includes major revisions/additions to GD 39 “Guidance Document on the Acute Inhalation Toxicity Testing”

The title of the document is: “VERSION 1, 31 January 2017- DRAFT UPDATED GUIDANCE DOCUMENT ON INHALATION TOXICOLOGY TESTING”

The PDF file of the above can be downloaded from:
