

Peer Review of the Draft NTP Technical Reports on Cell Phone Radiofrequency Radiation

National Institute of Environmental Health Sciences
Research Triangle Park, NC
March 26-28, 2018

Peer Review Format: Days 2 and 3

- NTP staff or support contractor present a brief overview of NTP's toxicology and carcinogenesis studies, and the findings and conclusions from the NTP cell phone RFR studies in mice and rats
 - Opportunity for questions of clarification from panel to NTP staff or support contractor
- Identification of written public comments and presentation of oral public comments (phone and in-person) on Day 2 only prior to NTP findings in mice
 - 5 min/speaker; 1 speaker/organization; multiple speakers share time
 - Opportunity for questions by panel to public speaker
- Each assigned reviewer for the draft report presents their peer review comments
 - NTP staff or support contractor responds to reviewer's comments
- Additional comments and general discussion by panel
 - NTP staff or support contractor responds to comments
 - Members from Panel 1 may be called on to answer questions from Panel 2
- Panel votes on draft NTP conclusions
 - Chair asks for a motion and a second to the motion
 - Panel votes by show of hands
 - Individuals who vote no or abstain state "why" for the record
