

Preliminary Agenda:

Systematic Reviews of Animal Studies Training

Sponsors: Systematic Review Centre for Laboratory Animal Experimentation (SYRCLE), University of California, San Francisco, Office of Health Assessment and Translation (OHAT)

Goal: Introduce the systematic review process to people unfamiliar with the methodology so that they are able to understand the issues/topics that will be discussed in during the 2-day meeting to follow without necessitating additional background provided during the actual talks.

Wednesday, August 23

Time	Activity
8:30 AM	Registration
9:00 AM	Welcome and Opening Main Introduction: Rob De Vries SYRCLE Introduction to OHAT/NTP: Vickie Walker NIEHS, NTP Introduction to Navigation Guide: Juleen Lam University of California, San Francisco
9:10 AM	Lecture: Introduction to Systematic Reviews of Animal Studies Juleen Lam University of California, San Francisco
9:50 AM	Introductory Lecture and Practical: Identify “All” Relevant Animal Studies Rob De Vries SYRCLE
10:45 AM	Screening Lecture + Advanced Screening and Screening Techniques Vickie Walker NIEHS, NTP
11:00 AM	Break
11:15 AM	Introductory Lecture Data Extraction: Study Characteristics and Study Validity/Risk of Bias Kim Wever SYRCLE
11:35 AM	Workshop Assignment in Pairs: Risk of Bias Assessment
12:30 PM	Lunch
1:30 PM	Introductory Lecture: Data Analysis and Meta-Analysis Rob De Vries SYRCLE
2:30 PM	Computer Practical: Meta-Analysis
3:45 PM	Break
4:00 PM	Reaching Conclusions/Integrating Evidence Assessment Andrew Rooney NIEHS, NTP
4:30 PM	Closure and Evaluation
5:00 PM	Adjourn
