Re: Request for Information on Nominations to the Report on Carcinogens

Dear Dr. Lunn,

The Nickel Producers Environmental Research Association (NiPERA) respectfully submits these comments on **Nickel Nanoparticles**, which was nominated for review in future editions of the Report on Carcinogens (RoC), 78 Federal Register No. 183, p. 57868-57869 (September 20, 2013). Enclosed we provide information on production, use patterns, human exposure, toxicity data, and scientific issues important for assessing the carcinogenicity of nickel nanoparticles.

NiPERA appreciates your consideration of these comments regarding the nomination of **Nickel Nanoparticles**. Please contact me if you have any questions related to these comments.

Sincerely,

[Redacted]

Tara Lyons-Darden, Ph.D., DABT
Health Scientist, NiPERA
